WHAT I BUILD

B2B SaaS

Data visualization

Design systems

Accessibility

RESEARCH & THINKING

User research

Behavioral design

Data-driven decisions

LEADERSHIP

DesignOps

Stakeholder facilitation

Cross-functional collaboration

PROFILE

Product Designer with 5+ years simplifying complex B2B systems and driving SaaS growth. I work at the intersection of how people think and what businesses need - leading end-to-end design across cross-functional teams to deliver products that drive measurable outcomes.

WORK EXPERIENCE

Product Designer

Minute

2021-Present

- **High-Impact Data Visualization:** Designed a comprehensive Revenue Overview Dashboard that achieved 100% day-one adoption, successfully monitored 300+ sites, and slashed time-to-insight to just 4 minutes.
- **Platform Growth & Adoption:** Led the design of a real-time SaaS analytics platform that directly contributed to landing the initial paying customer base, while driving an 83% user migration rate and reducing Excel dependencies by 25%.
- **Design Leadership & UX Strategy:** Founded the company's first UX research practice—training the design team and facilitating PM workshops—while establishing new revenue channels.
- **Design Operations (DesignOps):** Led the implementation of a new company-wide UI library, significantly improving cross-team alignment and accelerating feature delivery times.

Product Designer

xBiDa

2020-2021

AI Decision Dashboard for Retail: Designed an AI-powered dashboard for superstore managers, replacing fully manual workflows with context-aware recommendations. Led the full process from concept and planning through screen design and client presentations.

Product Designer

MAX

2020

- Led end-to-end design for Elwyn — an accessibility-first product for users with cognitive and physical disabilities, from discovery to development handoff.
